$$Sc = St \times T\% + Sf \times F\%$$

Unless there are exceptional reasons, the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates.
- 12.4 Having selected the Service Provider/Consulting Firm on the basis of, among other things, an evaluation of proposed key professional staff, IOM expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, IOM shall require assurances that the experts shall be actually available. IOM will not consider substitutions during contract negotiation unless both parties agree that the undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that staff were referred in their proposal without confirming their availability the Service Provider/Consulting Firm may be disqualified. Any proposed substitution shall have equivalent or better qualifications and experience than the original candidate.
- 12.5 All agreement in the negotiation will then be incorporated in the description of services and form part of the Contract.
- 12.6 The negotiations shall conclude with a review of the draft form of the Contract which forms part of this RFP (Section VI). To complete negotiations, IOM and the Service Providers/Consulting Firms shall initial the agreed Contract. If negotiations fail, IOM shall invite the second ranked Service Provider/Consulting Firm to negotiate a contract. Section IV. Terms of Reference

a) Background

Nowadays policy-makers in Albania, donor agencies, development specialists and the wider informed public have realized that the Albanian Diaspora are becoming increasingly important for the development of Albania. Albania's economy has benefitted significantly from remittance inflows, yet, there is a need to support new ways of promoting diaspora to retain their connection to Albania and contribute to its economic and social growth.

The three-year program "Engage the Albanian Diaspora to the Social and Economic Development of Albania", funded by the Italian Agency for Development Cooperation, identified and agreed with the governmental counterparts, will provide support to the Government of Albania (GoA) for enhancing the engagement of the Albanian diaspora in the development of the country, with a specific focus on the communities in Italy, through targeted actions following the areas of strategic relevance identified by the GoA. The program will be implemented by IOM in cooperation with the State Minister for Diaspora (SMD), the Ministry for Europe and Foreign Affairs (MEFA), the Ministry of Finances and Economy (MFE) and other line ministries as relevant, and in close coordination with the Italian Embassy in Tirana and the Italian Agency for Development Cooperation.

The proposed program activities and outputs are organized around the following three main outcomes:

Outcome 1 – GoA implements a comprehensive approach toward diaspora engagement for Development in line with the overall policy framework.

Outcome 2 - GoA facilitates the engagement of diaspora into country development and know-how transfer through skills matching.

Outcome 3 - GoA facilitates the engagement of diaspora into country development through business start-ups and investment.

b) Objectives

This engagement will contribute to the successful implementation of the Outcome 2 of the program. The activities under this outcome include: (i) mapping and profiling of diaspora in Italy as well as in France and Belgium; (ii) the design and the implementation of a Fellowship scheme that mobilizes diaspora high professionals in Italy to the development of the Albania.

Some key operational pillars in successfully implementing proposed activities, in line with the government approach, are the need to carry out activities aiming to better know the diaspora. This involves mapping of the diaspora and comprehensive data collection; compiling inventories of diaspora skills and experience; and understanding what the diaspora has to offer, what it is willing to offer and what it expects from the government in return. This will, in turn, enable the skills matching in Albania, to match the development needs of the country.

In this context, the mapping exercise will consist in the following:

- Mapping and profiling of the Albanian Diaspora in Italy, through field data collection and survey, with the engagement of Albanian Diaspora and Migrant associations in Italy, conducted in the following regions: Lombardy, Emilia-Romagna, Tuscany, Piedmont, Lazio;
- Mapping and profiling of the Albanian diaspora in France and Belgium, through desk research and on line interviews to the main Albanian and Migrant associations in these 2 countries.

c) Scope of the Services

The service provider is required to provide IOM with the following services:

1. Develop and share with IOM a methodology, including quantitative and qualitative research tools, for the mapping and profiling of the Albanian Diaspora in Italy, in coordination with IOM focal points and the main associations of Albanian diaspora and migrants, with the aim to:
 - 1.1. Establish a comprehensive demographic and sociological profile of the Albanian diaspora in Italy, in a synthetic overview of the findings as well as differentiated by location of residence. Profile characteristics should include, but not be limited to, length and goal of stay, also as compared with planned one; permanent settlement plans; legal status in the host country, and its evolution; family/household situation.
 - 1.2. Establish a comprehensive economic profile of the Albanian diaspora/migrants in Italy, including but not limited to: income level, expenditure and saving patterns, employment status, remittance-sending patterns, history and propensity of investment of resources accumulated abroad.
 - 1.3. Establish a comprehensive professional profile of the Albanian diaspora/migrants in Italy, including but not limited to: level of education, work/professional and respective area of experience, labour mobility, acquired skills, career achievements, etc.
 - 1.4. Explore the perception of circular migrants on the migration phenomenon itself, in its influence on the individual history and the home country's society. Self-assessment of positive and negative consequences of migration, for instance, pondering of material benefits versus psycho-emotional needs of children left behind by migrant parents.
 - 1.5. Study the impact of the economic crisis on Albanian migrants in Italy and their families.
 - 1.6. Organize focus group discussions with members of the permanent and temporary diaspora in Italy (focus group participants should include: household heads, businesspersons, diaspora multipliers, community leaders, intellectuals and spiritual leaders).
